GAME AND FISH

RE: Trapper on Own Land Needs Only Limited License

You have requested the opinion of this office as to the construction of the above sections. You ask whether one required to have a limited license to take beaver by section 20-0302 is required also to have a general license as required by section 20-0301.

It is our opinion that as one may hunt or trap upon his own land as permitted by section 20-0302, he may so trap provided only that before he may so trap beaver upon his own land, he must have the limited license to take beaver, as required by said section. This limited license is that provided for by sections 20-0710 and 20-0711.

ELMO T. CHRISTIANSON
